1. INTRODUCERE

Proiectul CYBERDYN reclamă utilizarea unei largi palete de date necesare, pe de o parte, în construcția modelelor preliminare create în vederea simularii proceselor interne, iar pe de altă parte, pentru validarea modelelor finale, elaborate cu ajutorul infrastructurii cibernetice nou-create.

În studiul realizat în etapa precedentă a fost prezentată structura bazei de date, precum şi conținutul ei la momentul respectiv, urmând ca acesta să se diversifice şi amplifice pe măsura implementării proiectului.

Sursele de date utilizate în realizarea acestei baze de date sunt de două feluri:

a) cea mai importantă sursă de informații este reprezentată de **literatura de specialitate** care prezintă rezultatele cercetărilor întreprinse anterior în arealul studiat; de aceea, un pas esențial în realizarea bazei de date este trecerea în revistă a publicațiilor care au ca obiect de studiu zona Vrancea şi regiunea adiacentă şi construcția unei biblioteci virtuale;

b) a doua categorie majoră de surse de informație o reprezintă **observațiile de teren întreprinse în cadrul Institutului de Geodinamică al Academiei Române**, cu mijloace proprii. Acestea completează informația existentă şi/sau aduc informații inedite.

În această etapă de realizare a proiectului activitatea de realizare a bazei de date s-a concentrat preponderent asupra noilor date achiziționate de către cercetătorii IGAR în cadrul proiectului de față. Acestea pot fi grupate în două mari categorii:

- date geofizice (gravimetrice) şi
- date geodinamice/geodezice.

Toată informația este stocată în baza de date computerizată într-un sistem compatibil GIS (Geographic Information System).

Sistemul de referință este STEREO 1970 pe elipsoidul Krasovski 1940, având ca sistem de cote Marea Neagră 1975.

In paralel cu coordonatele STEREO 70 au fost însă stocate şi coordonatele geografice ale punctelor de observație pentru a facilita trecerea mai uşoară pe un alt sistem de proiecție / coordonate (ex. UTM) în vederea comparării cu informații din afara teritoriului național.
